

K-LOVE is an important part of my family's life. My husband, myself, and my children listen to this station daily. It provide clean, uplifting music that our entire family can listen to. Please do not take away such a great station! Please consider the families who still have values and moral standards for their children and need some positive influences in their lives. Freedom of speech has been extended to so many groups, however, the Christians have paid a terrible price by losing their freedom of speech. Thank you for allowing me to respond and for your reconsideration on this station.
